

Dear Commissioners:

As you consider a Federal "Do Not Call" rule, please know that I am very pleased with the current law in Indiana. Since signing on to this provision last spring, unwanted solicitation calls have been eliminated. My family feels we have regained the quality of life that comes from the lack of unwanted intrusions into our family time.

Please do not implement any action that would diminish the effect of the Indiana law on me and my family. I am confident that persons in all states would welcome and value the lack of intrusive, unwanted solicitation calls that we have experienced since the Indiana law was enacted.

Thank you.

Duane C. Hoak  
Anderson, IN
